FIND CARE

Who are you looking for?

**Primary Care**
Family doctors, internists, OB-GYNs, pediatricians

**Specialty Care**
Dermatologists, cardiologists, oncologists, more

**Medical Groups**
Small practices or large organizations of doctors

to give members the next generation **consumer experience**

## Your health plan members become health care consumers when:

They can see how the choices they make affect their health care costs

They can compare how doctors rate for quality, including patient reviews

They can get information when and how they want – at home or on the go

They begin to actively "shop" for care

## DID YOU KNOW

Members who compare costs before receiving care **pay 36% less**

Members are **twice as likely** to compare costs when they're part of provider search tools

## Your members will:

Have an easier way to find the information they need

They're less likely to call customer service for help

And more likely to choose quality providers who charge less for their services

That leads to lower costs and more satisfied customers
